TABLE OF CONTENTS

NUMBER 1, OCTOBER 1, 1977

King, R J B, Kaye, A M & Shodell, M J, Co-purification of an oestrogen-induced protein from rat uterus and a factor able to stimulate DNA synthesis in cultured cells 1

Ayad, S R & Morgan, S L, The effect of temperature and the local anaesthetic, tetracaine, on prostaglandin E_1 stimulation of cAMP in normal and malignant cell lines 9

Allewell, N M & Wolfe, J, A kinetic analysis of the memory of a developmental interaction. Mating interactions in *Tetrahymena pyriformis* 15

McGaughey, R W, The maturation of porcine oocytes in minimal, defined culture media with varied macromolecular supplements and varied osmolarity 25

Colbert, D A & Coleman, J R, Transcriptional expression of non-repetitive DNA during normal and BUdR-mediated inhibition of myogenesis in culture 31

Pommerville, J, Chemotaxis of *Allomyces* gametes 43

Johnsen, S & Stokke, T, HeLa cell plasma membranes. III. Incorporation of [^{3}H]fucose into plasma membrane glycoproteins during the cell cycle 53

Alcalá, J, Maisel, H & Lieska, N, The presence of delta-crystallin in the plasma membrane of chick lens fiber cells 63

Quan, S G & Golde, D W, Surface morphology of the human alveolar macrophage 71

Lemay, P, Collyn-D'Hooghe, M & Torpier, G, XC-cell fusion induced by murine plasmocytoma cells. IV. A dynamic analysis by microcinematography and freeze-fracture 79

Ayad, S R & Foster, S J, Adenylate cyclase activity from normal, malignant and somatic cell hybrid, effect of PGE_1, NaF and guanyl nucleotides 87

Pearlstein, E, Isolation and partial characterization of plasma membrane glycoproteins from normal and transformed mammalian cells employing plant lectin affinity chromatography 95

Arlock, P A & Kanje, M, Effects of db-cAMP on the transmembrane potentials of cultured human glioma cells 105

Brinster, R L & Harstad, H, Energy metabolism in primordial germ cells of the mouse 111

Berg, T & Munthe-Kaas, A C, Lysosomal enzymes in cultured rat Kupffer cells 119

Vicker, M G, On the origin of the phagocytic membrane 127

Couble, P, Prudhomme, J C & Daillie, J, The biosynthesis of fibroin. III. Involvement of the Golgi apparatus in transport and secretion. An electron microscope radioautographic study 139

Matsui, S & Busch, H, Isolation and characterization of rDNA-containing chromatin from nucleoli 151

Garfield, R E & Somlyo, A P, Golgi apparatus and lectin-binding sites. Effects of lasalocid (X537A) 163

Mather, J & Hotta, Y, A phosphorylatable DNA-binding protein associated with a lipoprotein fraction from rat spermatocyte nuclei 181

Lanotte, M, Moerman, C & Panijel, J, DNA synthesis in mouse thymocytes 191

Moerman, C, Lanotte, M & Panijel, J, Comparative study of DNA elongation in mitogen-stimulated mouse thymocytes and splenocytes 201

Kielian, M C, Beyer, C F & Bowers, W E, Cell–cell interactions in blast transformation of rat lymphocytes by neuraminidase and galactose oxidase 211

NUMBER 2, OCTOBER 15, 1977

Johnson, H V & Griffin, M J, Isolation and characteristics of HeLa surface proteins 223

Harrison, P R, Affara, N, McNab, A & Paul, J, Erythroid differentiation in a Friend erythroleukemic cell × lymphoma hybrid cell line is limited, possibly due to reduced hem levels 237

Grippo, P, Taddei, C, Locorotondo, G & Gambino-Giuffrida, A, Cellular localization of DNA polymerase activities in full-grown oocytes and embryos of *Xenopus laevis* 247

Chen, H W, Heiniger, H-J & Kandutsch, A A, Stimulation of sterol and DNA synthesis in leukemic blood cells by low concentrations of phytohemagglutinin 253

Suzuki, K & Higashino, S, Protective effect of corticosteroids on intercellular junction 263

Wachsmuth, E D & Staber, F G, Changes in membrane-bound aminopeptidase on bone marrow-derived macrophages during their maturation in vitro 269

Vossen, J G H M, Leenders, H J, Derksen, J & Jeucken, G, Chromosomal puff induction in salivary glands from *Drosophila hydei* by arsenite 277

Leung, D Y M, Glagov, S & Mathews, M B, A new in vitro system for studying cell response to mechanical stimulation. Different effects of cyclic stretching and agitation on smooth muscle cell biosynthesis 285

Cornell, R, Grove, G L, Rothblat, G H & Horwitz, A F, Lipid requirement for cell cycling. The effect of selective inhibition of lipid synthesis 299

Doenecke, D, Ethidium bromide (EB) binding to nucleosomal DNA. Effects on DNA cleavage patterns 309

Knook, D L, Blansjaar, N & Sleyster, E C, Isolation and characterization of Kupffer and endothelial cells from the rat liver 317

Gross, V, Weiss, E, Northemann, W, Scheurlen, M & Heinrich, P C, Comparative studies of the

effects of galactosamine and actinomycin D on nuclear ribonucleoprotein particles from rat liver 331
Gaunt, S J & Subak-Sharpe, J H, Cell cycle variation associated with feeder effects in cultures of Chinese hamster fibroblasts 341
Middleton, C A, The effects of cell–cell contact on the spreading of pigmented retina epithelial cells in culture 349
Horisberger, M, Rosset, J & Vonlanthen, M, Location of glycoproteins on milk fat globule membrane by scanning and transmission electron microscopy, using lectin-labelled gold granules 361
van Wijk, R, van de Poll, K W, Amesz, W J C & Geilenkirchen, W L M, Studies on the variations in generation times of rat hepatoma cells in culture 371
Struve, W G, Arneson, R M, Chenevey, J E & Cartwright, C K, The effect of culture conditions on the fluidity of mouse neuroblastoma membranes as estimated by spin label studies 381
Brailovsky, C A, Nigam, V N & Pesant, S, Cell surface mobility of a bacterial R-form glycolipid, mR595, after binding to rat cells and its effect on the mobility of concanavalin A receptors 389
Levey, I L & Brinster, R L, Effects of cordycepin on macromolecular synthesis and development in the preimplantation mouse embryo 397
Kanje, M, Phosphatase activity in cultured glioma and neuroblastoma cells 407
Rubin, K, Kjellén, L & Öbrink, B, Intercellular adhesion between juvenile liver cells. A method to measure the formation of stable lateral contacts between cells attached to a collagen gel 413
Kato, H & Sandberg, A A, Effects of herpes simplex virus on sister chromatid exchange and chromosome abnormalities in human diploid fibroblasts 423
Heldin, C-H, Wasteson, Å & Westermark, B, Partial purification and characterization of platelet factors stimulating the multiplication of normal human glial cells 429
Swartzendruber, D E, A bromodeoxyuridine-(BUdR)-mithramycin technique for detecting cycling and non-cycling cells by flow microfluorometry 439

PRELIMINARY NOTES

Kato, H & Sandberg, A A, The effect of sera on sister chromatid exchanges in vitro 445
Schwarz, A G & Moore, C J, Inverse correlation between species life span and capacity of cultured fibroblasts to bind 7,12-dimethylbenz(a)-anthracene to DNA 448
Jarasch, E-D & Franke, W W, Absence of cytochrome oxidase in nuclear membranes from hepatocytes 450
Sanford, K K, Jones, G M, Tarone, R E & Fox, C H, Direction of locomotion in clones of non-neoplastic fibroblasts and their neoplastic derivatives 454
Prantera, G, di Castro, M, Marchetti, E & Rocchi, A, Effect of Distamycin A on Chinese hamster chromosomes 459
Spiegel, E & Spiegel, M, Microvilli in sea urchin eggs. Differences in their formation and type 462
Scheres, J M J C, Hustinx, T W J, Rutten, F J & Merkx, G F M, "Reverse" differential staining of sister chromatids 466
van Leuven, F, Verbruggen, R, Cassiman, J-J & van den Berghe, H, Demonstration of α_2-macroglobulin in cultured fibroblasts, using crossed immunoelectrophoresis 468
Davison, P F, Hong, B-S & Cooke, P, Classes of distinguishable 10 nm cytoplasmic filaments 471
